Specify anatomy/indication

PATIENT INSTRUCTIONS

1. Please bring this document with you to the exam.
2. Please bring your valid Health Care Card.
3. Please arrive earlier than your scheduled exam time.
4. Please do not bring children requiring supervision to the exam.

EXAM PREPARATIONS

ULTRASOUND

ABDOMEN:

Do not eat 6 hours prior to the exam time. Continue taking your home medications as prescribed by your physician. Diabetic patients should consult with their physicians and request an earlier appointment.

ABDOMEN AND PELVIC COMBINED:

Do not eat 6 hours prior to the exam time. Drink up to 1 liter (32 oz) of water 1 hour prior to your appointment time. Do not empty your bladder until the exam is completed. If necessary, you may partially empty your bladder. Note: If you are beyond 28 weeks pregnant, you do not have to fill your bladder.

OBSTETRICS, PELVIC (Kidney, Bladder & Gyn):

Drink up to 1 liter (32 oz) of water 1 hour prior to your appointment time. Do not empty your bladder until the exam is completed. If necessary, you may partially empty your bladder. Note: If you are beyond 28 weeks pregnant, you do not have to fill your bladder.

ALL OTHER ULTRASOUND EXAMS:

For all other general ultrasound exams other than specified above, there is no special exam preparation required.

MAMMOGRAPHY

Do not use deodorant, antiperspirant, lotion/body powder the day of the exam as this may interfere with breast imaging. If you are experiencing premenstrual tenderness, please reschedule your screening mammography appointment for when it has resolved. Please wear a two-piece outfit, this will make undressing easier for your examination.

GENERAL X-RAY

There is no special exam preparation required. Please wear outfit without zippers or metal.
